

Effectively breaks down:

- fat, oils, grease
- domestic soap & detergents
- proteins eg. hair & skin cells

This process eliminates malodours and leaves greywater clear and safe for garden use.

TECHNICAL DATA:

Targeted Compounds	Organic waste in domestic waste water treatment system.	
Bacterial Count	5.00E+09 cfu/g <i>Bacillus</i> spores.	
Bacterial type	<i>Bacillus</i> spores.	
Performance properties	Effective pH range: 4.0-11.0	Temperature range: 5-50 °C
Packaging	33g Block - 1 block per case. (shelf life of 24 months in an original unopened container)
